

A vertical poster for the HVAC Certificate Program. The top half features a background image of a large industrial HVAC system with many pipes and ducts. Overlaid on this is the text 'HVAC' in large, bold, black letters, followed by 'Certificate Program' in a smaller, bold, black font. Below this, the text 'Hands-on training to enter the world of work.' is written in a simple, black font. The bottom half of the poster is divided into two circular inset photos. The top circle shows a young man in a red cap and blue shirt working on a yellow tool. The bottom circle shows a young woman in a red cap and red shirt smiling. At the bottom of the poster, there is a green banner with the text 'Nebraska VR – Where your future begins' and 'vr.nebraska.gov'. The Nebraska VR logo is also present in the bottom right corner of the poster.

HVAC

Certificate Program

The HVAC Certificate Program is a hands-on training program for students with disabilities. Participants learn heating, ventilation, and air conditioning technology. This opportunity resulted from a partnership with Nebraska VR, the local community college, area businesses, and schools.

Students take classes, tour businesses, and either work part-time or participate in an internship with our employer partners.

How to get started:

- Meet with Nebraska VR Employment Specialist assigned to your school to fill out an application. (Scheduled through your guidance counselor or teacher.)
- Interview with employers.

To learn more about Nebraska VR, go to: vr.nebraska.gov. Find us on Facebook at: facebook.com/NebraskaVR.
